VISAYA — Celebrating Discoveries Since 2004, with 1,227 New Taxa Described

Dear [Name,fallback=],

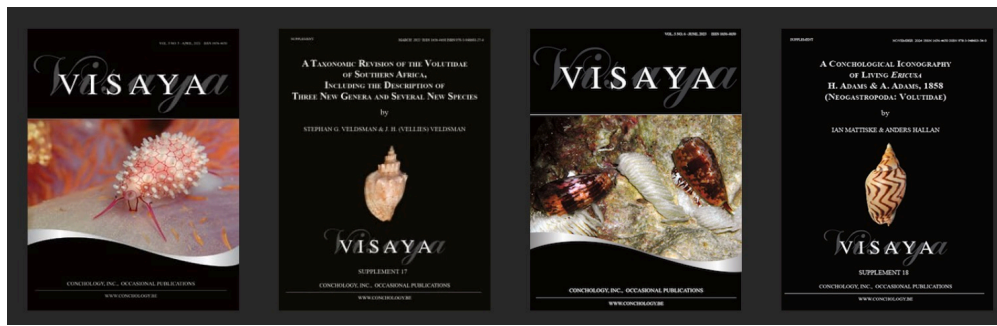

Since its first issue in 2004, Visaya has brought together people who share a passion for mollusks and the discoveries they inspire.

Visaya, a Conchology, Inc. journal published by ConchBooks, now comprises 53 publications, including 20 supplements, with contributions from 117 authors. Together, these works have introduced 1,227 new taxa, including species, genera and subspecies — a remarkable contribution to malacological knowledge.

Behind these achievements are years of careful observation, research and collaboration. We warmly thank every author, reader and supporter who has helped build this continuing scientific record.

Through its printed editions, Visaya preserves descriptions, illustrations and research for future generations, while continuing to welcome discoveries in taxonomy, biodiversity and natural history.

Call for articles for the next issue

We invite researchers, specialists, collectors and field observers to submit articles for the next issue of Visaya, scheduled for release in mid-December 2026.

Whether your work concerns new taxa, taxonomic revisions or regional studies, we would be pleased to hear from you. Your discoveries could be part of our next issue.

Submission deadline: 10 November 2026

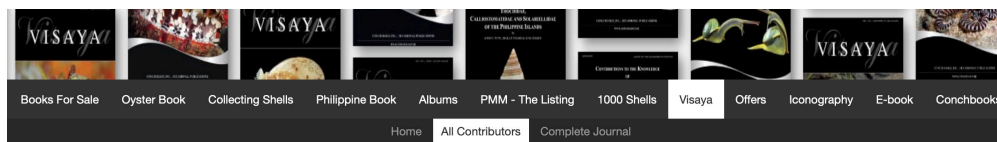

Please submit your manuscript through the “Submit New Article” form on the Visaya webpage, or send it by email to **Sheila Tagaro** or **Philippe Poppe**

Updated homepage for Visaya

Our updated Visaya homepage invites you to explore the journal’s achievements in greater detail. Each described species can be consulted, and every contributing author is acknowledged for their part in advancing malacological knowledge. Whether you are looking for a particular discovery, exploring an author’s work or simply curious about the diversity documented in Visaya, the page is well worth a visit: **Explore the new Visaya section.**
